

HK210

Disc Grinder HK210

Desktop machine for dry grinding, wet grinding and polishing
Universal Machine for Spectrometry and Metallography

Exchangeable grinding tables

Sample holders, magnetic (round)

Sample holders, mechanical (round)

Technical Data

Dimensions (width, depth, height)	410 x 280 x 240 mm
Mass	25 kg
Grinding disc	Ø 200 mm = 8 inch
Power supply	230 V, 50(60)Hz, 0.4 kW
Revolutions	280-2000 rpm, continuous at constant torque
Water inlet	¾ inch, max. 6 bar
Water outlet	1 inch

Optional Accessory

Spare grinding discs, paper clamping ring, sample holders (magnetic and mechanical)

DISC GRINDER HK210

- Continuous setting of revolutions, electronic motorbrake
- Easy exchange of grinding table with papers of different grit
- Polishing with paper, cloth + abrasive paste, separate water flush of pan
- Electromagnetic water inlet valve, fine regulation of water jet
- Digital display for revolution
- Built in automatic fuse
