Technical Specification

Micro powder HWC

commonly named Hoechst Wax C, a binder/tabletting aid for production of XRF pellets

Properties

Tabletting agent with very good binding and plasticizing effect, used up to 20% with difficult briquetting materials

Sales units

BR HWC/1 - 1kg PE-bottle
BR HWC/20 - 20kg bag

Composition

Bis-stearoyl-ethylendiamin

Possible hazards

no particular health hazards known
not hazardous as per transport regulations

Trace analysis

Co, Cr, Cu, Fe, Mn, Ni, Sr + Zn <5 µg/g
Bi, Pb + Tl <10 µg/g

Shelf life

at storage temperature <40°C no limitation
